# seed SWAP

Saturday, February 23, 2013

noon - 3 pm

Woodward High School

701 E. Central Avenue

Toledo, OH 43608

## WORKSHOPS

12:15 – 1:00

**Getting Started in Vegetable Garden Design**

Presented by Matthew Ross, Owens Community College Professor of Urban Agriculture and Landscape Turfgrass Management

Learn basics for designing your vegetable garden, such as picking the right plants and quantity for your needs and site conditions. New and seasoned gardeners will learn the best practices for what to do with all the amazing seeds collected during the Seed Swap.

1:15 – 2:00

**To Bee or Not to Bee!**

Presented by Karen Wood, Beekeeper & Community Garden Farmer

This workshop will let you know if you are really ready to get into the world of beekeeping! Learn common mistakes to avoid, how to get bees and equipment, expenses, problem solving and more. Each attendee will receive several helpful handouts and resources.

2:15 – 3:00

**Plant to Plate**

Presented by Lee Richter, Program Assistant Agriculture & Natural Resources & Patrice Powers-Barker, Extension Educator, Family & Consumer Sciences OSU Extension

Part of OSU Extension's Local Food Signature Program features information on easy-to-grow, economical, edible plants. This workshop covers everything from planting through harvest to washing, preserving and preparing simple, tasty, healthy recipes. This program is designed to inform and inspire gardeners of all skill levels as well as tempt the taste buds!
